Education

Columbia University | New York

2020–21

M.S. Data Journalism

Used data to uncover and visualize stories. Articles included: Bronx communities creating [internet networks](#) during Covid; [green roofs](#) in New York; and legislators lagging on [climate change](#). Awarded honors in Writing with Data and Digital Mapping classes.

Oxford University | Oxford

2014–17

B.A. English Language and Literature

Awarded the Fitzgerald Prize for attaining First Class Honours, the Quarrel Read Prize for making an exceptional contribution to college life, and the Skeat-Whitfield Prize for academic excellence in final-year coursework. Received a Reuben Scholarship. Published non-fiction articles and essays in magazines *The Exeter Egg* and *The Oxford Forum*.

Work Experience

2025–Present

Interactive Artist | Associated Press | London

- Designed and developed web apps like [Winter Olympics](#) and [World Cup](#) trackers, a [Ukraine war timeline](#), and a [CEO pay explorer](#). Built features such as this exploration of [Israel's land seizures](#).
- Created graphics for breaking and spot stories such as the [Louvre heist](#) and the [Le Pen appeal](#), and for explainers and investigative stories including [Venezuela's oil exports](#) and [Palestinian prisoner deaths](#).

2024–2025

Newsroom Developer | Tortoise Media | London

- Developed interactive graphics and web apps, including a hex map of the 2024 general election, a scrollytelling [stop-motion video](#), and a deep dive into climate misinformation on social media.

2021–2024

Data and Graphics Reporter | Mission Local | San Francisco

- Created graphics for a range of visual and data-led stories, such as: mapping a network of [corruption scandals](#), charting changes in [crime rates](#), and plotting the timeline of a controversial [mass arrest](#).
- Covered five local elections with [dashboards](#), [analyses](#), [vote explorers](#), [explainers](#), and deep dives on [political spending](#), including a [collaboration with Guardian US](#) to show the role of tech billionaires.
- Developed interactive tools like [searchable databases](#), a [budget explorer](#), a [crossword app](#), a San Francisco [census data explorer](#), and a [weekly quiz](#).
- Reported general assignment and investigative stories, including police attempting to authorize [lethal use of robots](#), the city's [redistricting debacle](#), and a [land dispute](#) involving guerilla gardeners.

2022

Teaching Assistant | Columbia University | New York

- Helped students with coding and design in Columbia's data journalism [mapping class](#).

2018–20

Editor | Oxford University Press | Oxford

- Wrote, edited, and proofread resources for primary education site [Oxford Owl](#) and print books.
- Developed digital tools and subscriptions, plus storytelling and explanatory videos for [YouTube](#).
